As part of further improving waste sorting and waste management, Paxxo has designed a smart and flexible signage system for both Stand Classic and Stand Dynamic.

The signs are mounted in a smooth way and simplifies the understanding of waste sorting. With these signs it is easy to create a sorting station. The signs fits all Classic and Dynamic and Wall mounted stands except Mini Wall Flex. They are available in 2 sizes. A4Portrait and A5Landscape.

The stickers to fit the signs are delivered in an editable PDF file so that you can customize the text to suit your customers' needs. You simply print the stickers on a laser printer. If the customer wants to buy ready-made stickers for the sign holders, Paxxo has a solution for this as well.
